present time, to reasons percent sectors re-to the President.

Although the operations of our navy have not been extensive, I camot overlook the ser-vices of Capt. Semmes in the Alabama. Dur-ing the year he has captured upwards of nine-ty vessels, serenty of which were destroyed.

ing the year no mes cayantee and an extroyed, the course "bonded or released one of the greatest drawbuses" ports having experienced, is the difficulty he now has in procuring full supplies of coal. The provincial English authorities have hitherto sitoried him every facility, but recently they have interpreted their neutrality laws so stringently that our war vessels and privateers are much emberrassed in obtaining satishles supplies. I have instructed Gapt, Semmes opurchase coal from neutral shipmasters wherever he found it, and give them every recessary document to protect them against the effect such sale may have upon their vessels when they refurn to their several countries. By this means I anticipate a sufficient supply of coal will be obtained to enable his to continue his operations during the coming year. The other operations of this depart-

my. I have not accepted the resignation bess gautiessen, but furnished them with Juoursy alsences, mill I can recall them the performance of other duties. I have sattered it important to keep the roll a million of the control of th

Voted to defer the discussion pending at the close of the morning session until evening.

Mr. Gow, of Rock Island, presented a report on compulsory attendance, the subject having been seferred to him at the last medicing of the Association. The report was

Correspondence of the Baltimore American.

The work of scraping the bottoms of the Monthers is very arkinous. The diversit a monas a spar, laabed atlawar the bottom of the vessel, so arranged as to be moved as the work progresses, and with a scraped fixed to a long handle works on both sides of himself as far as he can reach. The mass of oysters that become aftached to the iron hulls of one of the Monthers and fifth buthels of oysters, shells and seagrase were taken from the bottom of the Monthak alone. The captains of the Monthers have sometimes in dudged in the novelty of a mess of oysters resised on the hulls of their own vessels.

Besides cleaning the Monitors he divers perform other important cervices. They have rabsacked the interior of the Keokink, attached buoys to lost suchors, and made under water examinations of the robel ob-structions. Waters recently examined the sunkun Wechawken and met an unusual danger for even his perilous calling. The sea was so violent that he was twice thrown from the deck of the Monitor. Finally getting bild of the iron hadder heelinbed to be top of the turret, when a beavy sea cast ministed the turret between the guns. Fearing that his sir hose would become entangled handle his way out with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millicellar with all possible good, and was forced to give up his law sugarious millions. The sea was seen the sugarious millions with al

Jacob Schriner and Adam Snowberger, both married men, lived near neighbors, and it is said that Schriner has been living in trinsinal intimacy with Snowberger's wife, agies. About three weeks ago Snowberger made as to his whereabouts, Schriner replied that a proceed he had gobe to the army or to Chie to visa. It father. On Tucaday of last week Schriner's Thembeth, died to Obic to vies. "A father. On Tuesday of last week Schrinere." Phiesbeth, died very suddenly and was burried the next earsy suppletions of foul play were aroused among the brighbors, and Schriner was arrested. Search was made and Snowberger's body was found in a brash heap 30 or 30 rods from Schriner's house, his head split open with the sharp edge of an axe.

Echriner confesses that he killed Snowberger while working together, without any quarrel or provocation whatever. He says that he was put up to it by Snowberger's wife, that he was to kill Snowberger, and she to kill his (Schriner's) wife. Mrs. Snowberger has been arrosted on the charge of poisoning Schriner's wife, and both she and Schriner were brought here on Tuesday evening and lodged in the County Jail. We have not learned, whether Mrs. Shriner's hody has been dish erred and examined. All logether is to one of the most horrible affaire that even occurred in this county.

The Trial by Ordenl Still Extant.

The Trial by Ordeal Still Extant.

Medieval ordeals have not yet exploded, as is generally imagined—at least not yet among the insurgents in Poland, as the following incident will show:

A Jew, traveling in the neighborhood of Sanwalk, was stopped by some Russian troops, to whom he had to give some information, and then was allowed to depart without molestation. Soon afterwards he was stopped by a band of insurgents, whose chief, without formality, informed him that he must die for having befraged them to the mount of the seek of the following them to the more contracting to the following them to the more contracting to the seek of the following them to the more contracting the following the following the following them to the following them to the more contracting the following the following the following the following them to the following the following them to the following the following the following the following the following them to the followi
